### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### Notice to Applicant

1. This communication is in response to the application filed on 9/15/03. Claims 1-75 are pending.

### ***Claim Rejections - 35 USC § 101***

2. 35 U.S.C. 101 reads as follows:  
Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.
3. Claims 1, 12, 23, 33, 43, 48, 57, 63, 64, and 70 recite the claimed invention is directed to non-statutory subject matter.

Claims 1, 12, 23, 33, 43, 48, 57, 63-64 and 70 recite a process comprising the steps of: indicating gift items for purchase, indicating a plurality of entities, associating each gift and providing a machine readable code. Based on Supreme Court precedent, a proper process must be tied to another statutory class or transform underlying subject matter to a different state or thing (*Diamond v. Diehr*, 450 U.S. 175, 184 (1981); *Parker v. Flook*, 437 U.S. 584, 588 n.9 (1978); *Gottschalk v. Benson*, 409 U.S. 63, 70 (1972); *Cochrane v. Deener*, 94 U.S. 780,787-88 (1876)). Since neither of these requirements is met by the claim, the method is not considered a patent eligible process under 35 U.S.C. 101. To qualify as a statutory process, the claim should positively recite the other statutory class to which it is tied, for example by identifying the apparatus that accomplished the method steps or positively reciting the subject matter that is being transformed, for example by identifying the material that is being changed to a different state.

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1-75 are rejected under 35 U.S.C. 103(a) as being unpatentable over LeRoy et al.(5,970,474).

As per claims 1-75, LeRoy discloses a method of conveying gift registration information to a gift buyer, the method comprising: indicating gift items for purchase (See LeRoy, Col.1, lines 15-40); indicating a plurality of entities where the gift items may be purchased (See LeRoy, Col.5, lines 10-41); associating each gift item with an entity where the gift item may be purchased (See LeRoy, Col.5, lines 41-67). Examiner takes Official Notice that providing a machine readable code associated with a registrant is old and well known in the art. Therefore, it would have been obvious to one of ordinary skill in the art at the time of the invention to incorporate such a feature into the method of LeRoy. One of ordinary skill in the art would have been motivated to incorporate such a feature for the purpose of allowing registrants to register gift requests in a national database which is updatable to reflect customer purchases so that other customers can search the database from any location in the country and retrieve a current list to avoid making duplicate purchases.

As per claim 2, LeRoy discloses the method wherein the machine-readable code is a bar code (See LeRoy, Col.3, lines 45-49).

As per claim 3, LeRoy discloses the method, wherein indicating the plurality of entities includes showing a name associated with an entity (See LeRoy, Col.8, lines 11-24).

As per claim 4, LeRoy discloses the method, wherein the name is shown in logo form (See LeRoy, Col.7, lines 35-67).

As per claim 5, LeRoy discloses the method further comprising providing an image (See LeRoy, Col.7, lines 35-52).

As per claim 6, LeRoy discloses the method wherein the image is of a gift item (See LeRoy, Col.5, lines 41-67).

As per claim 7, LeRoy discloses the method further comprising indicating a purchase price associated with a gift item (See LeRoy, Col.1, lines 14-46).

As per claim 8, LeRoy discloses the method further comprising providing a reduced price associated with a gift item (See LeRoy, Col.7, lines 1-40).

As per claim 9, LeRoy discloses the method further comprising indicating a gift registration's location (See LeRoy, Col.8, lines 11-20).

Art Unit: 3687

As per claim 10, LeRoy discloses the method wherein a gift item is indicated by providing parameters that can be used to guide a purchase by the gift buyer (See LeRoy, Col.6, lines 44-67).

As per claim 11, LeRoy discloses the method wherein a gift item is indicated by providing preferred alternatives from which the gift buyer may purchase (See LeRoy, Col.6, lines 44-67).

6. Claims 12-75 repeat the same limitations as claim 1, are therefore rejected for the same reasons given above and incorporated herein.
